## Staying at Chena Huts in Yala National Park Review

DECEMBER 29, 2017

To the south of Sri Lanka, lies one of its most iconic national parks. Staying at Chena Huts in Yala National Park is an opportunity to get a close look at the wildlife and have an intimate escape along the coast.

Chena Huts by Uga Escapes is just one of their five incredible properties in Sri Lanka. Nestled inside Yala National Park, Chena Huts gives incredible access to visit the park. With 14 rooms sprinkled throughout the property inside lush greens and lagoons, it's one of the most private hotels on the island. The "huts" are more like luxurious villas, each set with everything you can need for a comfortable stay.

Walking along the boardwalk, the entrance to your personal hut brings you to a private patio. Upon entering, the aroma of cinnamon and vanilla fills the air. There's not a detail overlooked inside each villa, with amenities like a free-standing tub, rain shower, and of course, your own personal pool. During the down time, you can retreat to your hut for afternoon tea and cookies, and keep your eye out for bypassing animals like water buffalo and monkeys. The beds are plush, the kind that you won't want to leave in the morning.
